

KEY SKILLS

• OOP	• JQuery	• Javascript	• Nodejs	• Express.js
• Vuejs	• ReactJs	• Apache	• Nginx	• Laravel
• GIT	• Docker	• Linux	• ChatGPT	• PHP
• InertiaJs	• Design Pattern	• Tailwind CSS	• Redux.js	• MySQL
• Laravel Forge	• cPanel	• Responsive Web Design	• RESTful APIs	
• PostgreSQL	• Query Optimization	• GitHub/GitLab	• API Documentation (Swagger)	
• Supervisor	• Cron Jobs	• Queues	• Linux Command Line	

EXPERIENCE

• Senior Laravel Developer <i>Priceoye Technologies</i>	February 2024 - To Date <i>Islamabad</i>
◦ Actively engaged in backend development using Laravel, focusing on crafting robust solutions.	
◦ Applying Object-Oriented Programming (OOP) principles within Laravel to ensure code maintainability and scalability.	
◦ Implementing Factory Pattern and Services Pattern to streamline code organization and enhance application architecture.	
◦ Leveraging Laravel's extensive feature set, including Eloquent ORM, Routing, Middleware, and Authentication, to develop feature-rich applications.	
◦ Managing database operations efficiently through Laravel's migration and seeding system, ensuring data integrity and consistency.	
◦ Collaborating closely with frontend developers, designers, and other team members to deliver high-quality solutions.	
◦ Continuously learning and staying updated with the latest Laravel trends, updates, and best practices to enhance development processes and deliver exceptional results.	
• Software Engineer PHP/Laravel <i>Peek International</i>	August 2021 - February 2024 <i>Rawalpindi</i>
◦ Developed RESTful APIs and integrating them with frontend applications.	
◦ Developed Laravel's command-line tools for tasks like artisan commands and package management.	
◦ Contributed to frontend development using Vue.js and Inertia.js in tandem with Laravel backend systems to deliver modern and dynamic user interfaces.	
◦ Leveraged Laravel Forge for deployment and server management tasks, ensuring secure and reliable hosting environments for Laravel applications.	
◦ Proactively resolved server-related issues and performed troubleshooting tasks to maintain optimal application performance and availability.	
◦ Successfully implemented Inertia.js to develop server-driven single-page applications (SPAs), leveraging the simplicity of Laravel's server-side routing with Vue.js components.	
• MERN Stack Training <i>Teresol Pvt. Ltd</i>	February 2023 - April 2023 <i>Islamabad</i>
◦ Completed Teresol Pvt Ltd's intensive 300-hour TechLift Program, specializing in the MERN stack. Acquired comprehensive skills in MongoDB, Express.js, React, and Node.js for full-stack web development. Developed expertise in building robust and scalable web applications through hands-on projects and real-world applications.	

EDUCATION

• MSc Computer Science <i>Khawaja Fareed University of Engineering and Technology : KFUEIT</i>	October 2018 - March 2021
• Bsc Computer Science <i>The Islamia University of Bahawalpur: IUB</i>	2016 - 2018
